

## Repair, Replace, Restore, Regenerate

The Manchester Biomedical Research Centre is pleased to announce a one day meeting:

### Clinical Aspects of Regenerative Medicine

21st June 2010 (9:00am - 4:00pm)

Bringing together academics, clinician scientists and industry representatives to focus on current efforts to bring these innovative therapies to the clinic and the 'green shoots' of the Regenerative Medicine industry. The programme includes:

- **Tales from the Frontline**  
*Dr. Paul Kemp, Founder & CSO, Intercytex*
- **Cellular Therapy of Cancer: Bench to Bedside**  
*Prof. Robert Hawkins, Cellular Therapeutics Unit, University of Manchester*
- **Stem Cell Therapy of Inborn Errors of Metabolism**  
*Dr. Robert Wynn, Royal Manchester Children's Hospital*
- **Development of natural acellular scaffolds: From research to grafting**  
*Dr. Paul Rooney, NHS Blood & Tissue Transplant Services*
- **Regener8 Case Study: Acellular Allogeneic Cardiac Valves**  
*Prof. Eileen Ingham, University of Leeds*
- **Stem Cell Therapies for Kidney Disease**  
*Dr. Trisha Murray, University of Liverpool Stem Cell Consortium*
- **Title to be confirmed**  
*Dr. Tony Metcalfe, Head of Scientific Opportunities, Renovo Group*

**The Nowgen Centre  
Grafton Street  
Manchester M13 9WL**
